

PRESS RELEASE 10 DECEMBER 2014

**ITALEAF: The Shareholders' Meeting of Skyrobotic approved a capital increase in kind of Euro 0,97 million**

- **The new share capital of Skyrobotic is now of Euro 2 million**
- **Italeaf rises to 70% of the company through the contribution in kind of industrial buildings with a total area of around 1,200 square meters, which will constitute the largest Italian center for the development and industrial production of drones**
- **Siralab Robotics conferred the business branch related to the design and production of the unmanned surface vessel "Trasibot"**
- **Scheduled a new Extraordinary Shareholders' Meeting in 2014 for a further capital increase in cash of Euro 0.5 million and the transformation of Skyrobotic in SpA (joint-stock company)**

The Extraordinary Shareholders' Meeting of **Skyrobotic**, active in the development, design, industrial production and marketing of unmanned aircraft systems (UAS) in small and micro classes for civil and commercial use, part of the Italeaf group, has unanimously approved today a capital increase to be subscribed in kind for a total of EUR 0.97 million.

In particular, Italeaf S.p.A. subscribed the capital increase through the contribution of industrial buildings with a total area of around 1,200 square meters, for a value of Euro 0.87 million, which will constitute the largest Italian center for the development and industrial production of drones; while Siralab Robotics has transferred its business branch related to the research, design, development, engineering and construction of the robotic ship TrasiBot Unmanned Surface Vessel (USV) for a value of Euro 0.1 million.

Following the capital increase, the share capital of Skyrobotic is Euro 2 million with the following shareholders structure: Italeaf S.p.A. 70%, Siralab Robotics S.r.l. 30%.

The transactions will allow to put Skyrobotic in an optimal condition to grow in a consistent and fast way in the promising field of industrial production of unmanned aircraft systems for civil and commercial use, and to work with a product in the technological sector of the naval drones, already prototyped and tested.

By the year 2014 will be convened a new Extraordinary Shareholders' Meeting to approve a further capital increase in cash for an amount of Euro 0.5 million and the transformation of Skyrobotic in S.p.A. (joint-stock company).

*Skyrobotic Srl, with a share capital of 1.03 million Euros, is the Italian company leader in the field of unmanned aerial systems (UAS). Established in December 2013, and parte of the Italeaf group, is active in the development, manufacturing and marketing of drones in mini and micro classes for the civil and commercial use in the professional market. With a constant focus on innovation, the company intends to achieve the leadership in the field of unmanned aircraft, taking care of the whole industrial chain, from design to system integration, right through to production turnkey platform robust, practical and effective in the field of remote sensing proximity. Skyrobotic combines the know-how and decades of experience in the field of Siralab Robotics, a company with high technological content, and the track record, operational experience and financial capacity of Italeaf, group leader in the fields of cleantech and innovative industry listed on the First North segment of NASDAQ OMX in Stockholm Stock Exchange.*
