

PRESS RELEASE 12 JULY 2016

Italeaf: Skyrobotic at the Farnborough International Air Show presents its new Ground control station

- **Thanks to the new innovative console it is possible to control drone fleets and to connect to a centralized control room**
- **Growing Skyrobotic's offer for the security, safety, survey and inspection sectors**

Skyrobotic, a company leader in the production of drones under 25 kilograms entirely Made in Italy, part of the Italeaf Group, presented at the Farnborough International Air Show (UK) the new Ground Control Station bundled with the remote piloting aircraft system SF6.

In particular, the company has showed its latest generation console that integrates, in addition to the flight control stick, two high brightness touch monitor from which it is possible to control both the drone system and the payload for the data collection. The new "GCS" is able to control more drones in flight (fleet management) and has also been designed to be connected to a control room, so as to allow the remote control of the aircraft and of the sensors.

Many the safety features, from the redundancy of power supplies and radio frequencies to the use of encrypted communication protocols. The new GCS allows the pilot to be in control of all the system features in a friendly and functional way but also to be able to choose whether to transfer control of the cameras to another operator.

The Skyrobotic team will be present at the Farnborough International Air Show to 17 July within the space of Umbria Aerospace, established in 2008 thanks the initiative of Confindustria Umbria, in Hall 4 stand C120. In the days of the event some visits of authorities, customers and stakeholders are programmed.

Skyrobotic S.p.A. is the Italian leading company in the field of UAV (drones) production. Established in December 2013, it is part of Italeaf group, working on the development, manufacturing and marketing of civil and commercial drones, mini and micro classes for the professional market. With a constant focus on innovation, the company aims to achieve leadership in the professional sector of unmanned aircraft, taking care of the whole industrial chain: from design to the system integration, till the production of reliable and effective platforms. Skyrobotic joins track record, operational experience and the financial capacity of Italeaf, which is leader in the fields of cleantech and innovative industry and listed on the MTF NASDAQ First North at the Stockholm Stock Exchange. Moreover Skyrobotic joins the know-how and experience of Siralab Robotics, a company with high technological content.
