

PRESS RELEASE 11 JUNE 2018

ITALEAF: resignation of the vice-president of TerniEnergia Mr Giulio Gallazzi

The Board of Directors of **TerniEnergia**, smart company listed on MTA of Borsa Italiana and part of the Italeaf Group, met today, took note of the resignation with immediate effect of the board member and vice-president of the Company, Mr. Giulio Gallazzi. The decision was taken by Mr. Gallazzi believing that a further presence in the Board of Directors of TerniEnergia could no longer bring added value to the Board works, disagreeing himself with the path that the Company intended to undertake, preferring solutions aimed at a disposal of owned assets to be combined with agreements for the restructuring of bank debt, postponing a possible strengthening of equity to a later stage; the latter action, considered by Mr. Gallazzi, however, essential and priority over any other action.

The Board of Directors of TerniEnergia, taking note of the irrevocable resignation, thanked Giulio Gallazzi for the important and positive contribution made to the Company.

TERNIENERGIA (TER. MI), established in September 2005 and part of the Italeaf Group, is the first Italian global technological enabler, committed to bringing energy solutions and efficient recovery of integrated and sustainable resources to the world. Organized into two strategic business lines (Assets and Smart solutions and services), with about 400 employees and a geographical presence worldwide, with operative and commercial offices, TerniEnergia develops innovative solutions, products and services based on digital and industrial technologies for the energy supply chain, grids, smart mobility, industrial automation and the recovery of marginal resources.

TerniEnergia, also through its subsidiaries (Softeco Sismat, Selesoft Consulting, Greenled Industry, GreenAsm, GreenAsm, Purify, Wisave, Ant Energy), pursues the objectives of increasing energy production from renewable sources, saving energy and reducing emissions and actively participates in the energy revolution of distributed power generation and smart grids, with innovative digital solutions.

TerniEnergia is the ideal partner for large utilities, distribution operators and network operators, energy producers, public administrations, industrial customers and investors who intend to realize large projects for the production of renewable energy, modern systems and plants with high energy efficiency, solutions for the management and maintenance of infrastructure and electrical installations.

TerniEnergia has completed its transformation from a leader in the international photovoltaic market into a smart energy company and technological enabler for the sustainable use of resources through a complete commercial offer of solutions, the development and supply of digital technologies and the creation of "intelligent" services and solutions aimed at public and private customers in emerging sectors.

TerniEnergia is listed on the MTA of Borsa Italiana.
